

## Sharepoint Courses Questions

Please help! I'm an Employee Admin and Marketing project manager, not an IT professional or a Developer but my latest project is creating an Employee Intranet using Microsoft Sharepoint. I need help making it perfect and right now its barely functioning. Does anyone have any good advice on where to get a crash course on Sharepoint or any good resources to teach laymen to use it?

Answer :: call microsoft .... [Read More](#)

I'm using .Net. I am familiar with Java, C, and of course, VB.

Answer :: I think that this article may be useful:
